New Year's Resolution

A New Year's Resolution is a tradition, most common in the Western World but also found in the Eastern World, in which a person resolves to continue good practices, change an undesired trait or behavior, accomplish a personal goal, or otherwise improve their life at the start of a new year.

A resolution is simply a promise to yourself to get something done, ideally along with a plan to make it happen. It can be a goal that you set informally and keep private, or you can share your goals and plans with other people.

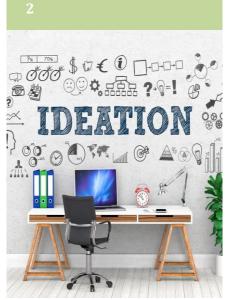

For a student, New Year's Resolutions can be: Focus on a healthy diet, Learn rather memorize, Speak up whenever I do not understand, Summarize each class in three paragraphs, or Be more helpful to my classmates. However, resolutions can be more general: Do random acts of kindness, Read a book a month, Go someplace you've never been, Turn off your phone one night a week, Volunteer, Write down one thing you're grateful for every night, Drink more water, Keep a journal, Start a new hobby, Start cooking, or Try guided meditation. What is your New Year's **Resolution?**

N.B. If you feel like sharing and contributing in any of the sections, you only have to send an email to businesschats@auce.edu.lb. Your input is highly welcomed!

Ideation

Ideation refers to the process of developing and conveying prescriptive ideas to others, typically in a business setting. It describes the sequence of thoughts, from the original concept to implementation. Ideation can be expressed in graphical, written, or verbal terms. Ideas and solutions can be generated through sessions such as Sketching, Prototyping, Brainstorming, Brainwriting, Worst Possible Idea, and a wealth of other ideation techniques.

In other words, ideation is the process of coming up with an idea. It is using creativity and questions like "What if?" to imagine ways something can be done differently. The ideation stage is critical to ensure that you are generating good ideas from the start.

"People have one thing in common; they are different."

Robert Zend

Innovation Climate

An innovative climate is a firm atmosphere that fosters and propagates creative mechanisms to achieve its goals. Research on firm climate focuses on the employees' perception of the work climate, which influences their attitudes and behaviors at work. Before you start ideating, take into consideration the following tips that will result in an effective brainstorming session and help to generate the next great, consumer relevant, and revenue driving idea for a business.

6 Tips To Improve Ideation Sessions

- KNOW WHERE YOU WANT TO GO: Do you know what you want to achieve with the ideation? Take the time to define the goals and objectives of the ideation before you start the sessions.
- KEEP THE CONSUMER TOP OF MIND: Know who you're creating the ideas for and what problems and needs exist that your brand can solve in creative new ways. Remember – You Might Be the Consumer!
- LEVERAGE DIVERSITY OF THINKING: Bring in team members from a variety of functions or backgrounds, even those who don't have experience in the area in which you are innovating.
- SPARK IDEAS WITH CREATIVITY AND HUMOR: Fun and laughter have a physical impact, freeing the imagination and leading to genuine creativity to get to breakthrough ideas.
- FOCUS ON THE WHAT, NOT THE HOW: The moment you hear "we can't do that because...," creativity loses steam. Remember, you want to keep your ideas "out of the box," as much as possible.
- SAVE ALL IDEAS AS THEY LEAD SOMEWHERE: Don't lose any of the ideas you generated. Make note of them and store them where you can access them for a jolt of inspiration. Who knows where each idea can ultimately lead you?!

What Our Graduates Are Doing Now?

I am **Soumaya Hamandi**. I graduated from AUCE in June 2019 with a BA degree in Banking and Finance. I am currently continuing my MBA studies in Finance. I am presently working as Assistant to the Dean at AUCE. My personal slogan in life was always "If you can't do something with it, then create something out of it".

I am Jean Bakhos. I received, with honor, my BA in Management from AUCE in 2020. I engaged in the Auto parts business at Bakhos Trading. Then, I established my own company, "Jean Bakhos Spare Parts S.A.R.L." in 2012 and still innovating in this field by preparing and new recently launching а project (Autopartsleb.com) that will shift the auto parts business to a new era. I am a social activist and the co-founder of the organization "Body and Soul of Lebanon". I was elected as a municipal council member from 2010 till 2016.

I'm **Oliva Chrifie** – 21 years old. I have a BA in Banking and Finance from AUCE Nabatieh. I thank AUCE for all the support provided throughout the past years. I have an online business "Vera_cosmetics_", in addition to Vera store for beauty and cosmetics products and services. I am so grateful to have my own job. I'm always hyperactive, especially, when I'm at work. I want to learn about everything. I'm an assiduous girl and I love my life.

I am **Mohamad Kassab**. I have graduated from the American University of Culture and Education (AUCE) – Tyre campus with a Bachelor Degree in Management Information Systems. Currently, I am working as a customer care representative in an American international company in Belgium called Becton and Dickinson.

Who Moved My Cheese?

SPENCER JOHNSON

A Must-Read Book

Who Moved My Cheese, a bestseller by Spencer Johnson published in 1998, is a parable about the inevitability of change, the ways in which we typically deal with it, and how revising our attitude toward change can reduce stress and increase success.

It is a story that demonstrates in practical terms how to handle change better and avoid pitfalls, by practicing a few key principles: anticipate and prepare for change, overcome fears, envision success, and enjoy change. By depicting simple, memorable characters and scenarios, the parable gives you a framework for responding to change successfully.

The story takes place in a maze, where four characters search for and consume cheese. Cheese represents happiness or satisfaction in its various forms — for instance, security, prestige, or wealth.

Did You Know?

Safest Countries in the World 2021

According to the Global Peace Index, there are 23 different indicators used to determine how safe or how dangerous a country is. The factors used to compile this report include: Number of internal and external violent conflicts, Level of distrust, Political instability, Potential for terrorist acts, Number of homicides, and Military expenditures as a percentage of GDP. Based on these factors, a score is calculated for each of the 163 nations featured in the report. The lower the score, the higher the nation is ranked in terms of safety.

The top 10 safest countries in the world are as follows:

- 1. Iceland
- 2. New Zealand
- 3. Portugal
- 4. Austria
- 5. Denmark
- 6. Canada
- 7. Singapore
- 8. Czech Republic
- 9. Japan
- 10. Switzerland

I am Zahraa Darwish. I have a Bachelor Degree from the Lebanese University and an MBA in Business Administration from AUCE. I am currently doing my PhD in CEDS University, Paris.
